## LIBRARY EVENTS

### HARVEY MILK: HIS LIVES AND DEATH

June is the American Library Association's LGBT Book Month and it is also national Gay Pride Month. In recognition of these events, the Burbank Public Library has invited back one of the leading scholars of LGBT history, Lillian Faderman, to speak about her new book **Harvey Milk: His Lives and Death**, which has been hailed as the essential, concise, up-to-date account of a man whose accomplishments and assassination both challenged and changed the nation. Ms. Faderman will discuss and sign her book at the Buena Vista Branch Library on May 31 at 7:00 p.m.

### THE JAMES WEBB SPACE TELESCOPE

Currently being assembled by Northrup Grumman Aerospace Systems in Redondo Beach, the James Webb Space Telescope will replace the Hubble Telescope as the premier observatory in space. The huge infrared telescope will be launched on an Ariane 5 rocket from French Guiana in Spring 2019. It will allow us to study every phase in the history of our Universe; a powerful time machine that will peer back over 13.5 billion years to see the first stars and galaxies forming out of the darkness of the early universe. Our guest speaker, NASA Solar Ambassador Salem Emara, will provide details about the design of the telescope and the great discoveries that await us. Buena Vista Branch Library, Wednesday May 2 at 7:00 p.m.
